SUMMARY

Bilingual (Portuguese and English) self-taught student and now enrolled in a Full Stack Software Development program with Code Institute, actively seeking career change opportunities as a Junior Web Developer, focused on continuing to develop new skills whilst building on existing experience and recent training. Working as a Chef in the last 13 years for bakeries, restaurants and managing my own business, I have the experience to work in a team in a fast environment under pressure, attention to detail, multi-task, proactive and willing to learn, that make it easy to adapt to changes in the industry.
